

Rule 5.1-1(g) (IOTA Rule) implementation Work Plan October 20, 2022

Originally adopted November 10, 2022 Rev July 2024 (revised to reflect adoption of fictitious name only) Rev December 2024 (revised to reflect objective standards and fair distribution updates adopted 11/13/24)

Rule 5.1-1(g) (IOTA Rule) implementation Work Plan

October 20, 2022

BACKGROUND AND OVERVIEW

Rule 5.1-1(g) (the IOTA Rule or amended rule) was amended by the Florida Supreme Court on June 18, 2021, effective at 12:01 a.m. on July 1, 2021 (the first day of FY 21-22). The rule creates new requirements for both FFLA and its grantees. Serious and thoughtful consideration is required to successfully comply with and implement the rule as amended.

The Executive Committee's initial Work Plan was ratified and approved by the Board on November 8, 2021. Subsequent to that date, FFLA staff and board members continued working on the development of a Work Plan for the distribution of IOTA funds collected pursuant to the IOTA Rule. This included further research and review, gathering input from and meeting with grantees and other persons and programs¹, and developing and administering a trial run distribution using a prototype developed for the general distribution of IOTA funds. It also included a second draft of this Work Plan which was reviewed by the Executive Committee's Work Group who then met on September 8, 2022.

¹ All existing grantees were (and are) invited to supplement or provide input regarding a) suggested demographic data from appropriate governmental agencies with explanation as to why such data should be considered; b) data provided by the qualified grantee organization on the use of any IOTA funds previously received; and c) their thoughts and ideas relating to funding distribution standards and formulas, suggested grantee qualifications; and timing preferences.

On September 9, 2022, in conjunction with its quarterly meeting, the full Board received comments from numerous grantee organizations and their representatives about the distribution of IOTA funds pursuant to the amended IOTA rule, along with their experiences relating to the previous trial run distribution.

Thereafter, the Executive Committee Work Group met on October 12, 2022, and October 18, 2022. Two subcommittee groups also met on October 17, 2022, to review weighting factors associated with general distributions and a request for proposals, respectively. This document reflects all efforts to date by the Executive Committee Work Group with resulting recommendations and changes to the initial Work Plan.

IMMEDIATE OBJECTIVES

This Work Plan's primary focus is on the establishment of objective standards for the selection of Qualified Grantee Organizations and the development of a Fair Distribution Plan. It also briefly discusses some basic principles and also touches on other aspects of the rule's requirements relating to reporting and compliance.

BASIC PRINCIPLES

1. Specific Application

This Work Plan applies only to the distribution of IOTA collections pursuant to the amended IOTA rule. It may, however, serve as guidance for all other grant programs, awards and program related expenses provided by FFLA using other sources of income and revenues.

2. Core Values

The amended rule does not change FFLA's mission, and it remains intact. Similarly, FFLA's controlling corporate and governance documents are not changed by the amended rule.²

² Article 3.1 of FFLA's Amended and Restated Articles of Corporation state that the purpose of FFLA is, "exclusive for charitable, educational, and scientific purposes under section 501(c)(3) of the Internal

FFLA's current mission statement is "to provide greater access to justice."³ Stated succinctly, FFLA funds, develops, and promotes services to meet the legal needs of people in Florida. In doing so, FFLA helps increase access to the justice system for the protection and preservation of individual rights, especially Due Process.⁴

3. Budget, Funding & Expenses

The amended rule does not change FFLA's process or duty to establish a reasonable and responsible annual budget. FFLA's duty is to adopt a budget that provides sufficient resources for FFLA to carry out its mission while considering all reasonable cost-savings measures, maximizing efficiencies, and being careful not to incur unreasonable expenses or engage in wasteful spending.

- a. Expand and improve representation and advocacy on behalf of low-income persons in civil legal matters
- b. Improve the administration of justice; and
- c. Promote service to the public by members of the legal profession by making public service an integral component of the law school experience."

³ The entire mission statement that appears on FFLA's website reads,

"To increase access to the justice system for people of limited means, FFLA funds legal services, develops innovative tools and programs, and supports legal aid providers and the courts."

Revenue Code, or the corresponding section of any future federal tax code (the "Code") which include, but are not limited to, funding, administering, implementing, operating and assisting programs that:

⁴ Procedural due process serves as a vehicle to ensure fair treatment through the proper administration of justice where substantive rights are at issue. <u>Dep't of Law Enforcement v. Real Prop.</u>, 588 So.2d 957, 960 (Fla.1991). Procedural due process requires that each litigant be given proper notice and a full and fair opportunity to be heard. *See, e.g., Vollmer v. Key Dev. Props., Inc.*, 966 So.2d 1022, 1027 (Fla. 2d DCA 2007); <u>Cnty. of Pasco v. Riehl</u>, 635 So.2d 17, 18–19 (Fla.1994). The same protection is provided by both the Florida and United States Constitutions. <u>N.C. v. Anderson</u>, 882 So.2d 990, 993 (Fla.2004). In layman's terms, Encyclopedia Britannica defines Due Process as, "a course of legal proceedings according to rules and principles that have been established in a system of jurisprudence for the enforcement and protection of private rights. In each case, due process contemplates an exercise of the powers of government as the law permits and sanctions, under recognized safeguards for the protection of individual rights."

Importantly, the amendments limit to 15% the portion of IOTA funds that may be used by FFLA for costs of administration, general overhead, and reserves, absent a specific allowance by the Supreme Court for additional funds or reserves drawn from IOTA collections. If direct expenses required to administer the IOTA program exceed 15% of the total amount of IOTA funds collected, FFLA will have to fund those expenses from other sources unless the Court grants an additional allowance.⁵

4. IOTA Administration and Operations

The amended rule impacts FFLA's overall operations and increases FFLA's duties as Florida's IOTA administrator. Consequently, FFLA focused on meeting the amended rule's requirements and, through multiple meetings of its Executive Committee Work Group, worked on creating, modifying, and implementing the processes necessary to do so. In addition to those multiple meetings, FFLA:

- Created a separate account to hold IOTA funds until distribution;
- Expanded its Financial Dashboard reports to include IOTA collections;
- Reviewed the process and began the development of a policy related to the separate investment of IOTA collections;
- Began the process to identify and quantify all direct expenses, actual costs and overhead expenses of FFLA related to fulfilling its obligations under the amended rule;⁶

⁵ Equally as important, the amendments do not disturb FFLA's ability to carry out its mission using funds from other sources, including its existing funds. The largest threat to FFLA's existence and ability to carry out its mission was the surprise downturn in the Federal Funds rate and accompanying near-zero interest rates because of COVID-19. Prior to that, the Great Recession kept interest rates at near-zero for nearly a decade. A close second is the fact that civil legal aid and FFLA are virtually invisible to, and misunderstood by, most people.

Consequently, FFLA is exploring other sources of funding to end its dependence on, or at least substantially complement, IOTA revenues and bank interest rates. This effort has initially reviewed FFLA's brand, name, mission statement, and message. In furtherance of this effort, the Board President appointed an ad hoc committee (Overall Review) which provided a preliminary recommendation to the Board on June 23, 2022 and is expected to provide further or final recommendations no later than December 16, 2022. The Development Committee will also intentionally research and explore all reasonable means of increasing donations and be prepared to work in tandem with the Overall Review committee.

⁶ Section (g)(1)(I) of the amended rule provides,

- Implemented timekeeping records to assist in the analysis, functional allocations, and computations involved; and
- Continued to maintain a separate IOTA department in its budget

5. Prospective Application

The rule is to be applied prospectively from its effective date, July 1, 2021. As such, IOTA funds collected on or after July 1, 2021, are subject to the amended rule. IOTA funds collected prior to that day are not.

6. Annual Review and Publication

These eligibility requirements and objective standards are reviewed by either the Executive or Grants Committee on an annual basis and amended as needed. They are also published annually on FFLA's public platforms and provided to the Court, The Florida Bar and all of FFLA's current grantees.

SELECTION OF QUALIFIED GRANTEE ORGANIZATIONS - OBJECTIVE STANDARDS

The amended rule provides the basic construct of an objective standard for selecting recipients of IOTA collections. First, it defines a qualified grantee as "a charitable or other nonprofit organization that facilitates or directly provides qualified

⁽I) "Direct expenses required to administer the IOTA funds" means those actual costs directly incurred by FFLA in performing the obligations imposed by this rule. Direct expenses required to administer the IOTA funds must not exceed 15% of collected IOTA funds in any fiscal year without the court's prior approval. These costs include preparation of FFLA's annual audit on IOTA funds, compensation of staff who exclusively perform the required collection, distribution, and reporting obligations imposed by this rule and overhead expenses of FFLA directly related to fulfilling its obligations under this rule. Direct expenses required to administer the IOTA funds also include:

⁽i) actual costs and expenses incurred by FFLA to increase the amount of IOTA funds available for distribution;

⁽ii) funding of reserves deemed by FFLA to be reasonably prudent to promote stability in distribution of IOTA funds to qualified grantee organizations;

⁽iii) direct costs related to *providing* training and technology to qualified grantee organizations, as specified below; and

⁽iv) direct costs to administer the Loan Repayment Assistance Program and to distribute funds in connection with the program (but not the program funds themselves) (emphasis added).

legal services by qualified legal services providers and that has experience in successfully doing so." 7

Secondly, the qualified grantee definition encompasses two more material terms, qualified legal services"⁸ and "qualified legal services providers."⁹

Lastly, Section (g)(8) of the amended rule provides, "[t]he FFLA must select qualified grantee organizations based on objective standards it develops.... The standards must require that IOTA funds be used to facilitate or directly provide qualified legal services by qualified legal services providers...."

Therefore, grantees must satisfy these minimum requirements.

In addition, all grantees who meet these minimum requirements are eligible for IOTA funding consideration, provided they:

- 1. Agree to fully comply with the amended rule;
- 2. Have a primary mission to provide, or facilitate the provision of, qualified legal services by qualified legal services providers;
- 3. Can demonstrate at least five full years of experience in providing qualified legal services;
- 4. Agree to adhere to FFLA policies, grant assurances, procedures, and performance requirements; and
- 5. Show upon request:
 - a. Satisfactory proof of financial stability and independence apart from FFLA funding;
 - b. Satisfactory proof of proper governance and internal controls; and
 - Satisfactory proof of subject matter expertise and competency required for a particular grant, award or project.

⁷ See Section (g)(1)(F) of the amended rule.

⁸ "Qualified legal services" are free legal services provided directly to low-income clients for their civil legal needs in Florida, and includes post-conviction representation, programs that assist low-income clients in navigating legal processes, and the publication of legal forms or other legal resources for use by pro se litigants. Id. at (G).

⁹ A "qualified legal services provider" is a member of The Florida Bar or other individual authorized by the Rules Regulating The Florida Bar or other law to provide qualified legal services. Id. at (H).

There shall be a preference for programs excelling in results, efficiencies, timeliness, collaboration, cooperation, and uniqueness of services provided. While not required, extended services, as defined by Legal Services Corporation¹⁰ and commonly understood by existing FFLA grantees and FCLAA members, will be preferred over other services directly provided.

FFLA intends to keep the existing legal service-provider network intact as much as possible, pending further review and analysis of the outcomes and results obtained through its funding going forward.

Even if ineligible for, or not initially awarded IOTA funding, existing grantees remain eligible for other FFLA funding and support, including non-IOTA funds available, Program Related Expenses, LRAP participation by their employees, technical assistance and support (subject to available funding or accommodation under contracts [i.e., Legal Server and Westlaw]), and recognition awards and contests (i.e. Law School Challenge).

Previous receipt of IOTA funds is not a prerequisite for consideration of IOTA funding, provided a grantee meets the requirements stated herein.

After each year's distribution of IOTA funding under the amended rule, additional data will be requested from grantees. This data will seek information reflecting:

- a. Reporting metrics required by the Florida Supreme Court;
- b. Results;
- c. Efficiencies;
- d. Collaboration and cooperation;
- e. Timely performance and reporting; and
- f. Uniqueness of services provided.

OBJECTIVE STANDARDS FOR FUNDING CIVIL LEGAL AID GRANTS

Purpose of Funding

¹⁰ See Chapter VIII, Section 8.3, CSR Handbook 2017, Legal Services Corporation which can be found here: https://www.lsc.gov/i-am-grantee/lsc-reporting-requirements/case-service-reporting/csr-handbook-2017

Funds must be used exclusively for civil legal aid services that assist lowincome individuals and underserved communities in non-political legal matters.

Statement of Priorities/Eligible Legal Areas

Recent studies indicate that the level of unmet civil legal needs (the "Justice Gap") in the United States is as high as 92%.¹¹ FFLA recognizes the vast degree of unmet civil legal needs facing low-income Floridians in underserved communities and is committed to reducing the Justice Gap and increasing access to Florida's civil justice system.

As such, FFLA will prioritize and focus its funding on those subject matter areas affecting the most low-income Floridians in need, on a population and per capita basis as identified by FFLA's current grantees. These funding areas include:

- Family law (e.g., domestic violence, support, custody, divorce)
- Housing law (e.g., eviction defense, tenant rights, mortgage foreclosure)
- Public benefits (e.g., food assistance, housing, disaster-related claims, disability claims)
- Consumer protection (e.g., debt collection, fraud, unfair and deceptive trade practices)
- Children, Elders, Veterans, Immigrants with legal status, Individuals with mental or physical disabilities.

Grantees may represent clients to protect that person's legal status but may not accept matters to establish a person's legal status or rights not otherwise recognized.

By using these standards, civil legal aid funds can be allocated effectively while ensuring that they are not misused for political purposes. It's essential to

¹¹ The Justice Gap, Legal Services Corporation (2022) ("The justice gap is the difference between the civil legal needs of low-income Americans and the resources available to meet those needs."). Link: <u>https://justicegap.lsc.gov/the-report/</u>

strike a balance that allows for the provision of critical civil legal services without engaging in speech, advocacy, or actions that are political in nature.

Prohibited Areas

- Funds must not be used for:
 - Political speech involving matters of substantial public concern.
 - Election Law matters.
 - Lobbying.
 - Education or training activities for anything other than the provision of civil legal services, enforcement of established legal rights, programs that assist low-income clients in navigating legal processes, and the publication of legal forms or other legal resources for use by pro se litigants.
 - Systematic advocacy for policy reform, legal reform, or civil rights initiatives unrelated to the representation of a specific low-income client.
 - Representing persons residing in the United States without legal status or persons under a deportation order.
 - Any lawsuit or litigation that names a political candidate or elected official in an individual capacity, unless that person is a low-income Floridian seeking qualified legal services from a qualified legal services provider as defined in the IOTA rule.
 - Class actions where the government is a party.
 - Amicus briefs in cases where the government is a party.
 - Suits against state agencies and local government, other than matters seeking remedies for individual clients in eligible legal areas listed herein.

 Facial challenges to existing laws or statutes; however, as-applied challenges for individuals in subject matters not otherwise prohibited are allowed.

Objective Evaluation Criteria

- When applying for funding, each applicant must include:
 - A detailed description of the proposed legal services and the client population served.
 - A clear plan for ensuring compliance with the prohibition on political matters.
 - Metrics for evaluating service effectiveness (e.g., number of cases handled, outcomes achieved).

Reporting and Accountability

- Grantees must:
 - Provide regular reports that, at a minimum, detail activities funded using FFLA funds; list types of cases addressed; list outcomes of legal assistance provided; and confirm no FFLA funding was used for prohibited matters, with a focus on compliance with standards.
 - Obtain single-source audits using outside auditors to confirm whether FFLA funding received was used in compliance with Rule 5-1.1(g), Rules Regulating The Florida Bar and these objective standards.
 - Grantees must provide FFLA copies of all single-source audits for each FFLA grant received containing IOTA collections and within 90 calendar days after the last day of each such grant period.
- FFLA will not fund or permit the use of unprofessional, uncivil, or derogatory language in any matter funded by FFLA.
- Any grantee or recipient of FFLA funds who fails to comply with Rule 5-1.1 (g), Rules Regulating The Florida Bar or these objective standards may be

deemed ineligible to receive FFLA funding and no longer considered as a qualified legal services provider.

Review Committee

• Should any recipient of FFLA funding have questions or concerns relating to their proposed use of FFLA funding, that recipient should - before using any FFLA funding in question - reach out to FFLA and request review of its proposed funding. This request should specifically identify and detail the proposed funding plan and explain any concerns or questions regarding the use of such funding.

Upon receipt of such request, FFLA will immediately convene a review committee that will meet and provide a report and recommendation in time for the next upcoming FFLA Board meeting or Executive Committee meeting. The review committee shall be empowered to review any material and request from grantees any information it deems relevant to the matter. The review committee shall list all sources of information it reviewed when providing its report and recommendation. The requesting party shall be advised of the Board or Executive Committee's decision within 3 business days of such final decision.

Definitions

Legal Services:

"Work done by a lawyer for a client." (Cambridge Business English Dictionary.)

"Legal services" refers to the work produced by an attorney for a client. These services include any advice, counsel, or assistance involving lawrelated matters that helps clients navigate the legal system and protect their rights. Specific examples of services are drafting documents, reviewing contracts, negotiating business arrangements, or representing clients in court. (Cornell Law School, Legal Information Institute).

Qualified Legal Services:

"Qualified legal services" are free legal services provided directly to lowincome clients for their civil legal needs in Florida, and includes postconviction representation, programs that assist low-income clients in navigating legal processes, and the publication of legal forms or other legal resources for use by pro se litigants. Rule 5-1.1(g)(1)(G), Rules Regulating The Florida Bar.

Political:

"Of or relating to government, a government or the conduct of government." (Merriam-Webster)

"Relating to the government or the public affairs of a country"
 "relating to the ideas or strategies of a particular party or group in politics."
 (Oxford Dictionary).

Non- political:

"Not influenced by or interested in political issues." (Britannica Dictionary).

"Not relating to or motivated by politics." (Oxford Dictionary).

Political speech

Any expression that deals with the governance of society, public issues, or criticism of the government. Political speech includes:

- Advocacy or criticism of public policies,
- Support or opposition to political candidates.
- Commentary on the conduct of elected officials.

See e.g., Citizens United v. Federal Election Com'n, 558 U.S. 310 (2010).

"<u>Political speech</u> means speech relating to the state government, body politic, or public administration as it relates to governmental policymaking. The term includes speech by the government or a candidate for office and any discussion of social issues. The term does not include speech concerning the administration, law, or civil aspects of government."

https://www.lawinsider.com/dictionary/political-speech

Public Concern

Speech on a matter of public concern relates to topics that are of general interest and importance to the community or society as a whole. It includes broad issues of public interest that affect the public at large and usually involves:

- Political, social, or community issues.
- Topics related to government policies, public safety, education, or corruption.
- Matters that inform or affect public debate.

See e.g. Snyder v. Phelps, 562 U.S. 443, 453 (USCT 2011) ("Speech deals with matters of public concern when it can "be fairly considered as relating to any matter of political, social, or other concern to the community," *Connick, supra,* at 146, 103 S.Ct. 1684, or when it "is a subject of legitimate news interest; that is, a subject of general interest and of value and concern to the public," *San Diego, supra,* at 83–84, 125 S.Ct. 521. See *Cox Broadcasting Corp. v. Cohn,* 420 U.S. 469, 492–494, 95 S.Ct. 1029, 43 L.Ed.2d 328 (1975); *Time, Inc. v. Hill,* 385 U.S. 374, 387–388, 87 S.Ct. 534, 17 L.Ed.2d 456 (1967).")

Private Concern

Speech that addresses purely private concerns typically involves personal grievances or disputes.

Examples of private concern include:

- Personal workplace disputes.
- Personal landlord/tenant disputes
- Personal causes of action seeking damages or protection or restoration of private or personal rights.

Lobbying

"Lobbying" means influencing or attempting to influence legislative action or nonaction through oral or written communication or an attempt to obtain the goodwill of a member or employee of the Legislature. Fla. Stat. Ann. § 11.045.

"Lobbyist" means a person who is employed and receives payment, or who contracts for economic consideration, for the purpose of lobbying, or a person who is principally employed for governmental affairs by another person or governmental entity to lobby on behalf of that other person or governmental entity. Fla. Stat. Ann. § 11.045.

Does not include (1) an attorney who represents a client in a judicial proceeding or in a formal administrative proceeding or any other formal hearing before an agency, board, commission, or authority of this state; (2) an employee of an agency or legislative or judicial branch entity acting in the normal course of his or her duties; (3) a confidential informant providing confidential information to be used for law enforcement purposes; a person who lobbies to procure a contract less than \$20,000. Fla. Stat. Ann. § 112.3215 & 287.017.

Election Law matters

Election law is the "branch of law dealing with the regulation of the electoral process, which includes the rights of voters, political parties, and candidates, as well as the conduct of elections themselves. It also covers matters related to campaign finance, districting, voting systems, and election challenges." (Encyclopedia Brittanica).

It also includes federal laws such as the Voting Rights Act, the Federal Election Campaign Act, as well as state election laws. (Cornell Law School's Legal Information Institute).

Chapters 97–106 of the Florida Statutes encompass the Florida Election Code, which regulates all aspects of elections in the state.

FAIR DISTRIBUTION PLAN

Section (g)(8) of the amended rule requires FFLA to consider data from appropriate governmental agencies and grantees before developing a fair distribution plan regarding IOTA collections.¹²

FFLA reviewed, among other things, U.S. Bureau of Labor Statistics and data, information and input provided by the American Bar Association Commission on IOLTA, other IOTA programs, members of the National Association of IOLTA programs, and the United Way. It also reviewed all data provided by FCLAA and grantees submitted to FFLA per its request and surveys to all grantees and FCLAA.¹³

There are several approaches available for distributing IOTA funds to qualified grantees as long as FFLA distributes no later than 6 months after the end of the preceding fiscal year all IOTA funds collected that fiscal year, except for direct expenses required to administer the IOTA funds, funds required to fund the Loan Repayment Assistance Program, and an additional reserve if requested by FFLA and approved by the Court.

FFLA may employ one or more of the following approaches and may create more or discontinue some of them with notice to the Court and all grantees.

1. General Process

FFLA constantly monitors and tracks all IOTA collections and prepares a monthly report indicating the total amount of collections for the previous month and fiscal year to date. This information is provided in a quarterly dashboard report prepared by FFLA's finance department. It is published on FFLA's website and is available upon request.

All IOTA funds are kept separately until distribution. Currently, this account is invested in short term funds using FFLA's investment advisers pending further development and finalization of a specific investment policy for IOTA funds. If

¹² "[t]o ensure fair distribution of IOTA funds across Florida, must consider relevant data, including: (A) demographic data provided by an appropriate governmental agency, such as the U.S. Bureau of Labor Statistics; and (B) data provided by the qualified grantee organization on the use of any IOTA funds previously received." Id. at (g)(8).

¹³ Attached as **Exhibit A** is a compilation of some of the data sources reviewed and considered.

adopted, the policy will be published on FFLA's website and will be made available upon request.

Within 30 days after the end of each fiscal year, FFLA prepares and publishes an IOTA Collections Public Notice.¹⁴

2. LRAP Distributions

LRAP loans are made per calendar year with two payments typically made during the course of that calendar year. As such, payment and administration of the LRAP program spans more than one fiscal year. To avoid a potential violation of the amended rule's distribution deadline, LRAP loans are allocated and administered on FFLA's current schedule but paid with IOTA funds collected during the FY in which the applications were received and awarded. IOTA funds will not be held back from one FY's collection for payment during the following FY. Thus, LRAP loans are awarded subject to available funding collected in the FY in which the applications were received and awarded.

3. Distribution of Remaining Funds

After the principal amount of LRAP loans to be awarded is deducted from the net IOTA distribution, the remaining amount is allocated by applying either a specific amount or percentage of such remaining amount to be distributed toward one or more of the following distribution initiatives:

- 1. "General distribution by subject matter" (funding to directly provide qualified legal services by qualified legal services providers);
- 2. Pro Bono (funding to facilitate the provision of qualified legal services by qualified legal services providers);
- 3. Annual Competitive grants (i.e., AOJ, CLS, LSA, etc.); and
- 4. Periodic grants for limited purposes (i.e., Training, Technology, Matching, Disaster Relief, etc.)

¹⁴ Attached as **Exhibit B** is FFLA's IOTA Collections Public Notice it prepared for FY21-22.

- A. <u>General distribution by subject matter</u> consists of allocated IOTA funds distributed to:
 - a. One or more qualified grantee organization(s);
 - b. To fund the direct provision or facilitation of qualified legal services by qualified legal services providers; and
 - c. To increase access to the justice system to protect and preserve individual rights in matters seeking remedies for individual clients in eligible legal areas listed herein.

Grantees receiving this funding must satisfactorily prove present ability and capacity to provide such service(s) in their selected eligible legal areas.

Qualified grantees receive pro rata distribution of available IOTA funds based on 1) a regional basis¹⁵ 2) using both poverty and working poor populations; 3) based on current grantee FTE attorney capacity weighted by size to reflect regional need and/or dependence on FFLA funding and to promote overall sustainability of the delivery model (existing network) with special attention to percentage of poverty and working poor population in region/service area and availability of other resources.

This distribution formula is subject to change on a periodic basis to reflect updates in available data and information. Attached as **Exhibit D** is the template that was used during the IOTA trial run and shows the basic formula and thencurrent weighting scale. **Exhibit E** is the current, proposed Weighting Guide approved by the Work Group on October 18.

B. <u>Pro bono funding</u>

When approved by the Board, Pro Bono funding is made available to non-LSC grantees¹⁶ that have:

¹⁵ Florida is divided into 7 regions by The Legal Services Corporation as reflected in **Exhibit C**.

¹⁶ LSC organizations are required to dedicate 12.5% of basic field grants to Private Attorney Involvement. LSC also offers Pro Bono Innovation Fund grants "to collaboratively engage more lawyers and non-legal professionals in pro bono service and address gaps in legal services and persistent challenges in the pro

- 1. An established and operating pro bono program;
- 2. Dedicated pro bono budgets and written policies and procedures; and
- 3. Placed, within the 12 months preceding the distribution, at least the same number of pro bono assignments to private attorneys as the grantee has total FTE lawyers.

The amount allocated for pro bono funding is allocated to each region on a pro-rated amount based on statewide poverty and/or working poor population. Qualified pro bono grantees receive either a pro rata distribution of allocated IOTA funds or, provided sufficient allocated funds exist in such region, an amount up to their actual and current pro bono budgets, whichever is greater.

Pro rata distribution is based on 1) a regional basis; 2) using both poverty and working poor populations; 3) based on current grantee capacity weighted by size or actual program budget to reflect regional need and/or dependence on FFLA funding; and to promote overall sustainability of the delivery model (existing network), with special attention to percentage of poverty population in region/service area and availability of other resources.

It is FFLA's intent to allocate up to 12.5% of the total net IOTA collections available for distribution to grantees toward pro bono funding. Any IOTA funds allocated¹⁷ but not used for pro bono funding are rolled over into the IOTA general distribution by subject matter allocation and disbursed on or before December 31 of that same calendar year so as to meet the distribution requirements of the amended rule.

C. <u>Annual Competitive grants</u> are identified and allocated per FFLA's existing policies and practices. Applications are processed, scored and awarded per FFLA's existing policies during the first six months of each Calendar Year, with payment contingent upon available and existing funds.

bono delivery system." Go to: <u>https://www.lsc.gov/grants/pro-bono-innovation-fund</u> for more information.

¹⁷ Although IOTA funds may be allocated for use, they are kept separate until actual disbursement.

Such grants may be funded from all sources, provided that if any grant or award is funded in any part with IOTA collections, such grant or award will be paid in full on or before December 31 of that same calendar year so as to meet the distribution requirements of the amended rule.

Any IOTA funds allocated but not used for such grants are rolled over into the IOTA general distribution by subject matter allocation and disbursed on or before December 31 of that same calendar year so as to meet the distribution requirements of the amended rule.

D. <u>Periodic Grants for limited purposes</u> are processed per FFLA's existing policies and practices. Applications are processed, scored and awarded per each grant's policy and on a quarterly basis.

Such grants may be funded from all sources, provided that if any grant or award is funded in any part with IOTA collections, such grant or award are paid in full on or before December 31 of that same calendar year so as to meet the distribution requirements of the amended rule.

Any IOTA funds allocated but not used for such grants are rolled over into the IOTA general distribution by subject matter allocation and disbursed on or before December 31 of that same calendar year so as to meet the distribution requirements of the amended rule.

COMPLIANCE AND REPORTING

1. FFLA's obligations

In addition to providing the Court with a copy of the annual audit of IOTA funds, FFLA annually certifies to the Court its compliance with the IOTA rule's requirements on the use of IOTA funds. This certification will include, but not be limited to:

(a) the amount of IOTA funds received;

- (b) a detailed breakdown of direct expenses required to administer the IOTA funds;
- (c) the name of each qualified grantee organization to which distributions were made;
- (d) the amount of distribution received by each qualified grantee organization;
- (e) a description of the process for determining eligibility and selection of each qualified grantee organization, including the objective standards developed for that purpose;
- (f) the total amount received from sources other than IOTA funds;
- (g) a detailed summary of the information provided to FFLA from qualified grantee organizations as required by subdivision (11) of this rule;
- (h) the total amount distributed under the Loan Repayment Assistance Program and the number of qualified legal services providers to whom distributions were made; and
- (i) any other information the court requests that it determines is relevant.
- 2. Separate IOTA audit

An annual separate audit is obtained from an independent auditor after consultation with a qualified advisor¹⁸ who provides recommendations regarding the scope and purpose (compliance, financial review, etc.) of the annual audit of IOTA funds. As needed, a consultant/expert will advise on:

- a. The definition and scope of "direct expense" and "overhead" issues as provided for in the amended rule.
- b. Whether all or any portion of IOTA funds collected (including funds held for disbursements and funds used for expenses) may, or should be, invested, and if so, how and under what terms.

¹⁸ This resource hopefully may be a board member or qualified person providing free or reduced-price services.

- c. A methodology relating to the formulation and calculation of "overhead expenses of FFLA directly related to fulfilling its obligations under [the amended rule.]"¹⁹
- 3. Reporting and Certification Dates

Reporting and certification dates are determined by distribution dates. Because of the timing associated with the distribution of IOTA funds, FFLA and grantees were not in a position to fully comply with subdivision (10) of the rule until 2024.

For grantees, the following dates and provisions shall apply:

- a. Grantees will receive IOTA distributions per the amended rule no later than December 31 of that same calendar year.
- b. Grantees will be given one calendar year from the date of their receipt of such funds to use such funds in accordance with the amended rule.
- c. Grantees will be required to provide their initial annual certification and report pursuant to subdivision (11)²⁰ of the amended rule on or

¹⁹ See Section (g)(1)(I), Rules Regulating the Florida Bar. A draft Methodology memo has been prepared previously and is attached as **Exhibit F**. It is subject to further review and revision depending on the Board's further direction.

²⁰ Rule 5-1.1(g)(11) provides,

[&]quot;Qualified grantee organizations must annually certify to FFLA their compliance with this rule's requirements on the use of IOTA funds. This certification must include, but not be limited to:

⁽A) the number of qualified legal services providers compensated or facilitated by the use of IOTA funds;

⁽B) the number of clients receiving qualified legal services paid for or facilitated by the use of IOTA funds;

⁽C) the number of low-income Floridians who, while not directly represented, are nevertheless assisted by qualified legal services paid for or facilitated by the use of IOTA funds;

⁽D) the number of hours expended delivering qualified legal services paid for or facilitated by the use of IOTA funds;

⁽E) the types of matters for which clients received qualified legal services paid for or facilitated by the use of IOTA funds;

⁽F) an accounting of the use of IOTA funds, including the amount used to establish reserves and pay for overhead and other general administrative expenses;

⁽G) the total amount received from sources other than IOTA funds by the qualified grantee organization; and (H) any other information the court determines is relevant."

before March 30, 2024; and every year thereafter on that date unless such date falls on a day that Florida courts are not open to the public, then the next day thereafter on which the courts are open to the public.

d. Failure to timely provide such report(s) may disqualify grantees from further funding by and from FFLA. FFLA establishes, with input from grantees, a date certain for all grantees to provide the information required under the amended rule.

Notwithstanding the time limits prescribed for Grantee reports, FFLA submits its report and certification to the Court using a template similar to **Exhibit G.**

Thereafter, FFLA provides its annual certification and report to the Court each year thereafter after it has received and processed all certifications and reports from qualified grantee organizations receiving IOTA funds pursuant to the amended rule.

4. FFLA's Due Diligence Responsibilities

Suggested dates, beginning 2024:

- a. March 30 for grantees to report and certify to FFLA.
- b. May 15 for FFLA to report and certify to the Court.
- c. June 30 for FFLA to submit its IOTA audit to Court.

While FFLA monitors grantees' performance for determining continuing eligibility, it will not certify grantees' compliance with the rule. Similarly, FFLA does not comment on the information provided by grantees or the grantees' use of funds per subdivision 9 of the rule. Neither will it recommend or decide the merits of written justifications provided by grantees per subdivision 9, unless specifically asked to do so by the Court. It will report to the Court all written justifications submitted.

FFLA reminds grantees of the annual certification requirement, but it will not interfere with the Court's order in terms of enforcement. Compliance with

reporting requirements will be a factor in determining a grantee's continuing eligibility to receive IOTA funds.

FFLA believes the amended rule requires reports by all grantees that qualify for IOTA distributions, including those that may not or have not received IOTA distributions.²¹ However, reports from such qualified grantee organizations are expected to be understandably shorter.

FFLA internally assesses and evaluates the quality of work performed by grantees when determining continuing eligibility but does not anticipate providing the Court any qualitative analysis of the work performed by grantees receiving IOTA funds, unless asked to do so by the Court.

This Work Plan is reviewed, at minimum, on an annual basis and is subject to change pending further work by applicable work groups and committees, further research, and consultation with grantees and other resources.

END OF TEXT

²¹Section (g)(11) of the amended rule provides,

[&]quot;Qualified grantee organizations must annually certify to FFLA their compliance with this rule's requirements on the use of IOTA funds." Section (g)(1)(F) defines a qualified grantee organization as "a charitable or other nonprofit organization that facilitates or directly provides qualified legal services by qualified legal service providers and that has experience in successfully doing so." There is no provision that states a qualified grantee is exempt from the reporting and certification requirements of the rule if they do not receive IOTA collections funding directly from FFLA. For instance, all existing Grantees receive program related expenses from FFLA such as Westlaw and Legal Server case management subsidies. These subsidies are paid for by FFLA using IOTA collections per the amended rule. A copy of the current FFLA network showing existing grantees and the recent types of awards they have received are attached as **Exhibit H**.

Public notice – FFLA: FY21-22 IOTA funds collections

Pursuant to Rule 5.1-1(g), Rules Regulating the Florida Bar, FFLA announces that it has collected \$9,498,804.89 in IOTA collections during FY21-22 (7.1.21 – 6.30.21).

In accordance with Rule 5.1-1(g)(8), FFLA will, on or before December 31, 2022 distribute to 1 or more qualified grantee organizations all IOTA funds collected during FY21-22 except for direct expenses required to administer the IOTA funds, funds required to fund the Loan Repayment Assistance Program, and an additional reserve amount if requested by FFLA and approved by the Florida Supreme Court.

FFLA will distribute all net available IOTA funds collected during FY21-22 on or before December 31, 2022.

THE FLORIDA BAR FOUNDATION

This memorandum explains the methodology developed by the Foundation relating to its use of IOTA collections for the payment of "actual costs directly incurred by the Foundation in performing the obligations imposed by the rule." (Rule 5-1.1 (9), Rules Regulating the Florida Bar) (The IOTA rule).

Methodology for assessing IOTA ratios and remittances to FBF

- All IOTA collections received during a given fiscal year are kept in a separate account until disbursed.¹
- As soon as reasonably possible after the conclusion of the fiscal year ending June 30, all IOTA collections will be tallied and published showing the total amount collected along with the 85/15 division identified in the IOTA rule.
- 85% of such collections will be distributed to qualified grantee organizations on or before December 31 of that same calendar year.
- 15% of the collections will remain in a separate account until such time as the Foundation prepares its estimate relating to IOTA expenses for the upcoming fiscal year.
 - a. Afterwards, the resulting estimate (up to the 15% amount) will be remitted to the Foundation for its use.
 - b. If the estimate is less than 15% of the IOTA funds collected in the previous fiscal year, the difference will be kept in the separate IOTA account.
 - c. If the estimate is greater than the 15% of the IOTA funds collected in the previous year, the Foundation may decide to petition the Court for a larger allowance per the rule. While it may receive up to 15% of the IOTA funds collected in the previous fiscal year, it will not take an amount greater than 15% absent express permission from the Court.

¹ See Rule 5-1.1(8), Rule Regulating the Florida Bar. Consideration is underway whether those funds should be invested in the interim. In the event such funds are to be invested for the benefit of the IOTA Program, they will be invested separately from all other funds.

- Timesheets will be kept by all Foundation employees for determining actual ratios relating to time spent by FBF personnel (Timesheets were created, staff has been trained and test runs have been ongoing).
 - a. Time sheets will be monitored and tracked throughout the fiscal year.
 - b. A final analysis of the time sheets will be prepared after the end of the upcoming fiscal year to determine the actual ratios relating to time spent on IOTA vs. non-IOTA related matters.
- 6. At or around the conclusion of the following fiscal year, the Foundation will "true up" its previous IOTA-related estimate with the "actual costs directly incurred by the Foundation in performing the obligations imposed by the rule" for that fiscal year.
 - a. If the resulting "true up" number is lower than the previous estimate amount, then the Foundation will return the difference to the separate IOTA account.
 - b. If the resulting number is greater than the previous estimate amount, then the Foundation will take the difference between the previous estimate amount and the funds remaining, if any, in the 15% amount of IOTA collections from the preceding fiscal year.
 - c. The Foundation may also petition the Court for additional monies if the actual cost to administer the IOTA rule exceeds 15% of the IOTA funds collected during the preceding fiscal year.

IOTA expense estimates – calculation methods

Three methods have been identified as possible approaches to determine IOTA ratios and resulting estimates for direct expenses related to administering the IOTA program for an upcoming fiscal year. Each method is explained below with resulting estimated amounts shown.²

1. Manual review of job descriptions and operating budget line items

This process starts with analysis of the job duties and responsibilities of each Foundation employee as such relate to the IOTA rule which results in an IOTA/non-IOTA

² While these amounts vary, the Foundation recognizes that direct expenses required to administer the IOTA funds must not exceed 15% of collected IOTA funds in any fiscal year without the Court's prior approval.

expense ratio ("staffing ratio")³. That ratio is then applied to the Foundation's payroll and related costs (benefits, taxes, retirement and workers compensation) budgeted for the upcoming fiscal year. It is also used in the next step when assigning values to budget line items.

Thereafter, a line-by-line analysis of the remaining operating costs contained in the Foundation's proposed operating budget for the upcoming fiscal year⁴ is performed. Each line item is assigned a value depending on whether the cost item qualifies as a direct expense in carrying out the obligations imposed by the rule. The following values are then used.

- a. Yes 100%
- b. No 0%
- c. Both/Mixed⁵ current year's staffing ratio.

This method results in a \$1,467,714 estimate for FY22-23.

Exhibit A shows the calculations and resulting estimated amount using this year's staffing ratio.

2. Code of Federal Regulations application

An analysis of the Code of Federal Regulations⁶ reveals that Congress allows Legal Services Corporation civil legal aid providers to charge 100% of staff salaries for executive and other positions essential to the organization. Using this analysis results in a 73/27 (IOTA/non-IOTA) cost ratio.

Exhibit B shows the application of this method, which results in \$1,824,224 for estimated IOTA expenses for the upcoming fiscal year.

3. Historical income streams application

Another approach involves applying a ratio based on the amount of IOTA funds received as a percentage of total income. The rationale for such approach is to attempt to gauge such percentage as a function of the overall effort and resources required to

³ This analysis evaluates the current staff in place and may change each year, especially with the implementation of staff timesheets. The ratio that resulted from this exercise this year is 57/43.

⁴ If approved by the Board on June 23, the Foundation's proposed operating budget for FY22-23 is expected to be \$2,509,775.

⁵ An expense that is shared universally and cannot be specifically assigned was classified as "both/mixed." Some examples of such type expenses include rent/lease payments, office supplies, IT costs, office equipment, insurance, etc.

⁶ See 45 CFR § 1630.3(e).

administer collected revenues used to fund grants, awards and program-related costs.⁷ Since 1982, IOTA funds have represented 81.1% of Foundation income as reflected below.

Audited records through FY 20-21 indicate:

Total IOTA Contributions	\$511,017,334		
Total Other Revenues	\$118,989,583		
Total Revenues	\$630,006,917		
Grants Awarded	\$520,199,978		
Program-Related Expenses	\$ 13,802,701		
M&G Expenses	\$ 60,468,674		
FR Expenses	\$ 5,674,909		
Total Expenses	\$600,146,262		

Thus, IOTA revenues constitute 81.1% of total revenues received by the Foundation.

Using this approach results in 2,035,428 for estimated IOTA expenses for the upcoming fiscal year (FY22-23 budget of 2,509,775 million * 81.1% = 2,035,428.).

⁷ Program Related Expenses are monies paid to grantees to assist grantees that are NOT actual grants.

EXHIBIT A

Pro Forma - Projected Payroll Budget FY 2022-23 Summary - IOTA vs Non-IOTA Expenses

	ΙΟΤΑ	Non-IOTA	Total
Payroll & Related	\$797,196	\$593,339	\$1,390,535
	57.3%	42.7%	100.0%
Department Costs (non-payroll)	\$670,518	\$448,722	\$1,119,240
	59.9%	40.1%	100.0%
Total 22-23 Pro Forma Budget	\$1,467,714	\$1,042,061	\$2,509,775
	58.5%	41.5%	100.0%

EXHIBIT B

Pro Forma - Projected Payroll Budget FY 2022-23 Summary -- CFR Method -- IOTA vs Non-IOTA Expenses

	ΙΟΤΑ	Non-IOTA	Total
Payroll & Related	\$1,153,706	\$236,829	\$1,390,535
	83.0%	17.0%	100.0%
Department Costs (non-payroll)	\$670,518	\$448,722	\$1,119,240
	59.9%	40.1%	100.0%
Total 22-23 Pro Forma Budget	\$1,824,224	\$685,551	\$2,509,775
	72.7%	27.3%	100.0%

IOTA Rule – First Report – Outline

Introductory explanation that FFLA's first report may not be due until Spring or Summer 2024 because IOTA funds were first distributed under amended rule on or before December 31, 2022. Grantees' need time to expend such funds and record performance metrics. Historically, one year is the minimum amount of time for such process. FFLA is nevertheless providing this interim report to inform the Court of its efforts in implementing the amended rule as quickly, completely and efficiently as possible.

- Auditor:
 - Will verify
 - Funds were kept separated (8)
 - May need MS verification as well.
 - Separated funds were/were not invested.
 - If invested
 - o 85/15/100 basis
 - Types of investments (risk tolerance level)
 - Performance of investments
 - o Party(ies) that bore risk of loss of investment
 - Party(ies) that enjoyed gains
 - Amounts collected/received in FY 21-22 (10)(A)
 - 85% for grantee distribution
 - 15% for FFLA direct expenses to be used in 22-23 FY budget
 - A detailed breakdown of direct expenses required to administer the IOTA funds (10)(B)
 - Detailed breakdown of direct expenses will not be provided because they will not be accumulated at that point in time
 - However, will provide annual operating budget with IOTA/Non-IOTA breakdown and ratios
 - SHOW 22-23 FY budget
 - May have deducted those expenses based on annual budget adopted in June 22.
 - Amount of IOTA funds distributed to date (10)(C)
 - Identity of IOTA funds recipients and amounts received (10)(D)
- Description of current objective standards developed (10) (E)
 - All sources of income (10)(F)
- Description of selection process for current recipients
- Will not include grantee data funds not yet baked (10)(G)
- Description of Fair Distribution Plan (not required)
- Prospective/expected date(s) for grantee reports
- LRAP distributions not yet required, but will provide listing of all LRAP recipients currently funded (using pre-amendment monies) (10) (H)
- Any other information the court has determined is relevant or specifically indicated it wants.
